For years some banks have been offering everything from key chains to rabbits' feet trying to get you to open an account with them. Deposit seven thousand dollars, and they'll give you a good deal on a plastic flamingo for your front yard.

Well, once again, the bank that doesn't do things like those other banks doesn't do it again.

Two really great premiums have fallen into our hands. A fantastic emergency space light, designed with the space missions, that lasts up to five years. Keep it in your glove compartment, on your boat or in your home. In an emergency, the 5-year space light will burn ten to twenty hours. And, a commemorative manned space flight plaque. This attractive wall plaque gives the dates of our manned space flights, together with the colorful patches from those missions, and a topographical representation of the earth. The best part is, you can get the five-year light for only $5.00 plus tax when you open a savings or checking account of $50 or more (or add $50 to an existing time deposit). Or, it's free if you open a one or two-year certificate of deposit for $750 or more. And the plaque can be yours for only $12.95 plus tax by opening a checking or savings account of $50 or more or by adding $50 to an existing time deposit). Or, it can be had for only $5 plus tax by opening a certificate of deposit for $5,000 or more.

Stop in at any Fidelity National branch and check out these two great premiums.

With competition like this up against wigs, key chains and rabbits' feet, this could be the premium offer to end all premium offers, we hope.
